GET TO KNOW THE NEW KURZWEIL 1000

New Features Added to Award-Winning Scan & Read Software with On-the-Go Access

The award-winning scan and read software from Kurzweil Education is now even better. The latest release of k1000, Version 14, introduces the powerful new features users want–providing full access to print and digital reading materials.

k1000 makes printed or electronic text accessible to people with blindness and visual impairments–speaking text aloud in a variety of natural-sounding voices that can be modified to individual preferences.

Users save time and gain independence–whether at home, school, or work. k1000 is easy to use for beginners, yet powerful and flexible for advanced users.

"I use k1000 to scan my books, mail, even food boxes. I have found it to be the most efficient and user-friendly way for me to read almost anything without human assistance. Each new version of Kurzweil 1000 has increased scanning accuracy and added features that make scanning, finding and reading material of all types faster and easier."

—Sarah Van O., k1000 User
